

Dear All

It's time for our monthly update and the most important thing is the attached contact list.

A few things have happened since last month and we are now a League of fully paid up members, everyone is now affiliated to Badminton Scotland as a competitive player and as such you can put on any entry form that you are a member of the SSL Club which will allow you to enter any competition you like knowing that you are fully affiliated to our NGB. This has brought with it one main benefit which is listed here: [Shuttleworks Singles League - Booking Courts](#).

The new pools are available to view here: [Shuttleworks Singles League - The Leagues](#)

Those eagle eyed among you will have noticed something a wee bit odd and a wee bit of a shakeup in the placements, this has lead to the Committee having to meet and basically discuss a course of action about non communication and non playing. We had mailed out before that we had changed the rules to allow people to not play as long as they had communicated this to us and based on the information we received we would of course try and reach a reasonable conclusion that was fair to all concerned. This last month was a bit of a difficult one for us as we had to decide what course of action to take for people that had not bothered to communicate a reason for non playing and leaving it up to the others in their pool to do all the chasing or just plain not bothering to reply to calls, texts or mails.

We decided to enforce the previous communication that if you did not play any games you are automatically demoted one pool the first time. Please try and remember that there are 4 people in each pool and they all want to play, if you cannot play please let each player and the League ([admin@singlesleague.co.uk](mailto:admin@singlesleague.co.uk)) know as soon as possible. One day before the end of the month is not being fair on your fellow competitors or us.

Likewise we need your scores, it is always better to get two sets of scores for a match than none at all, some people are denied promotion because they have not recorded their scores and as far as we know if a score is not recorded the match did not happen, so please report your scores to [scores@singlesleague.co.uk](mailto:scores@singlesleague.co.uk).

So go play your matches, try and have fun and keep an eye on the count down timer

SSL
